Sir,

Subject - Payment of a contribution of Rs 240/- towards the expansion of the local Industrial School by Nelamangala Municipality

I have the honour to state that the mino municipal council of Nelamangala have resolved at their meeting held on 27-2-42 that a grant of Rs 240/- may be paid towards the expansion of the local Industrial School It is seen from the enclosed records that the question of construction of another building adjoining the present industrial school is under correspondence An estimate for Rs 10,000/- has been prepared for this work by the Department of Industries and Commerce and ¼ of the estimated cost has to be met by the Townsmen towards the moiety of this public contribution, the municipality have resolved to pay Rs 240/- out of its closing balance

Asked as to how this work which is of the discretionery nature was considered as one of immediate necessity in the face of certain obligatory duties to be discharged, it is reported that the Industrial School at Nelamangala is serving the needs of the locality to a great extent and that its extension is one of urgent necessity The Director of Industries and Commerce has also requested early sanction to the proposal of the Municipal Council A copy of his letter No DI-49/42-43 dated 20-7-42 to the President, District Board in the matter is herein enclosed for favour of reference It is further reported that the work would be taken up soon after the collection of the ¼ contribution of the estimated cost Both the Amildar President and the Sub Division Officer support the recommendation of the Municipal Council The finances of this Municipality are improving

improving and so the grant now proposed may be paid out of its closing balance for the current year

In these circumstances, I request that sanction of Government may kindly be obtained to the resolution of the Nelamangala Municipal Council regarding the payment of above grant The connected records accompany for favour of reference and return

I have the honour to be,

Letter No D1-43/40-41 dated 20th July 42 from the Director of Industries and Commerce, t the District Board President, Bangalore

Subject. Expansion of the Industrial School at Nelamangala

I beg to inform you that this Industrial School has a curious history Being situated so near to Bangalore, it was thought that there was no necessity for a separate school in the town But the citizens of the place were very enthusiastic and they went in deputation to different officers of Government concerned and also approached the various local self-Government institutions and also other public bodies The present school has had contributions from the District Board, Bangalore, from the Municipality of Nelamangala, from some of the Co-operative institutions in the town and also contributions from the citizens It has a record of consistent and continuous good work The school is very popular The attendance is good During the four or five years, the citizens have been agitating for the extension of the School But for some reason or other, the Department has not been able to obtain the necessary grants from Government

Recently I paid a visit to the institution and met the prominent citizens in a conference I informed them that an estimate had been prepared by the Department costing between Rs 9,000 to Rs 10,000 and that if the local citizens and institutions made proper contributions, I would take up the case with the Government After a great deal of discussion, an understanding was arrived at, that the citizens should collect four annas in the rupee and that the Government should bear the remaining twelve annas in the rupee

This afternoon I received a delegation of citizens headed by Mr Gangadhara Dikshitar and also accompanies by Messrs M Gubbi Huchappa, Varada Setty and Thimmaraya Setty They represented that on account of war situation, the economic condition of the people is worsened and therefore expected contributions, in spite of their sincere efforts, could not be realised They also stated that the parents of the Nelamangala Town are unanimously of opinion that the school should be extended They have been able to pursuade three co-operative societies in the locality to contribute about a Rs 275/- and the Municipality has passed resolution agreeing to contribute Rs 240/- They informed me that it may not be possible to collect more from any other institutions except the Bangalore District Board Private contributions have also been promised to an extent of another Rs 50/- to Rs 60/-

I am writing this letter to you to enlist your sympathy for the school and also to request you to kindly make a handsome grant from the District Board funds towards the expansion of the school Since once before your District Board has already contributed a small sum of money, I do not think there should be any difficulty to get approval of your Board to make a contribution of at least Rs 2,000/- so that I may be enabled to approach the Government that I have been able to collect from local bodies and the citizens one-fourth the amount of the money required for the expansion of the school I understand that there is a meeting of the Board on the 8th of August 1942 and I shall be very glad if you can have this matter brought up at the meeting and the necessary resolutions passed

Thanking you in anticipation
